For Immediate Release:

**CITY OF YOUNGSTOWN ANNOUNCES
NEW FIXED RATE FOR NATURAL GAS AGGREGATION PROGRAM**

Youngstown, Ohio (September xx, 2025) – City of Youngstown officials are pleased to announce that they have established a 24-month fixed-rate of \$4.85/Mcf for the city's natural gas program. The fixed rate will run through the October 2027 billing cycle. Residents and small commercial customers can expect a letter from IGS Energy to arrive shortly after September 11th. The letter will explain the rate, terms and conditions of the offer.

We are pleased to make this rate available for our residents and small businesses. The fixed-rate will give them price protection and budget stability for the next term. As before, our program has no early termination fee.

Residents and businesses should carefully read their letter from IGS Energy. Anyone currently participating in the program will not need to take any action in order to continue on with the new term.

Those who are not currently participating, who wish to join the new term must actively contact IGS Energy and request to be enrolled. The letter from IGS Energy will detail the three ways to enroll: via mail by returning the reply card with your letter, online at www.igsenergy.com using the invitation code on you letter, or over the phone at 877-353-0162.

We would like to remind you that the city's program is simply another option for you to consider, and it is important that you make yourself aware of the other options available to you, specifically:

- The Public Utility Commission of Ohio provides a list of other publicly available offers on their website, www.energychoice.ohio.gov. Anyone considering those supply offers should be aware of any early termination penalties, fixed monthly charges, or automatic renewal provisions that can quickly offset any perceived savings. Our program includes none of the above.
- The utility's supply rate the Standard Choice Offer (SCO) is a variable rate option. It follows monthly market conditions and trends up and down throughout the year.

Again, we would like to remind people that the program is simply another option for our residents and small businesses to consider in their efforts to manage their energy costs.

The City is pleased to have made this program possible but asks that you do not call the City offices. They are not equipped to handle a large volume of calls. **Residents should contact IGS Energy at 877-353-0162 if they have any questions.**
