

# NEIGHBORHOOD IMPACT AREA

YOUNGSTOWN, OHIO – 2<sup>th</sup> Ward OCTOBER 2023

**NEIGHBORHOOD IMPACT  
AREA**

***NEIGHBORHOOD  
IMPROVEMENT TOOL***

- TARGETED**
- MULTIFACETED**
- COORDINATED**
- TRANSPARENT**

The City of Youngstown Code Enforcement and Blight Remediation Department has introduced the "Neighborhood Impact Area" program, a new tool for neighborhood improvement. This is a targeted, multifaceted, coordinated, and transparent effort, involving the Departments of Public Works, Code Enforcement, Community Police, Street, Health, and Parks and Recreation.

A Neighborhood Impact Area (N.I.A.) comprises a targeted, 3 to 4 block area of the City. For a scheduled and advertised 2-week period, multiple departments will converge upon the N.I.A. to perform a number of services and address issues, such as:

THE CITY OF  
**YOU**

**YOUNGSTOWN**  
OHIO

Property Code Enforcement

Grass Cutting

Demolition

Street Conditions

Tree Conditions

Traffic Sign and Signal Issues

Water and Waste Water Infrastructure

Litter Control

Public Health Concerns

Community Police Public Outreach

Quality-of-Life Issues

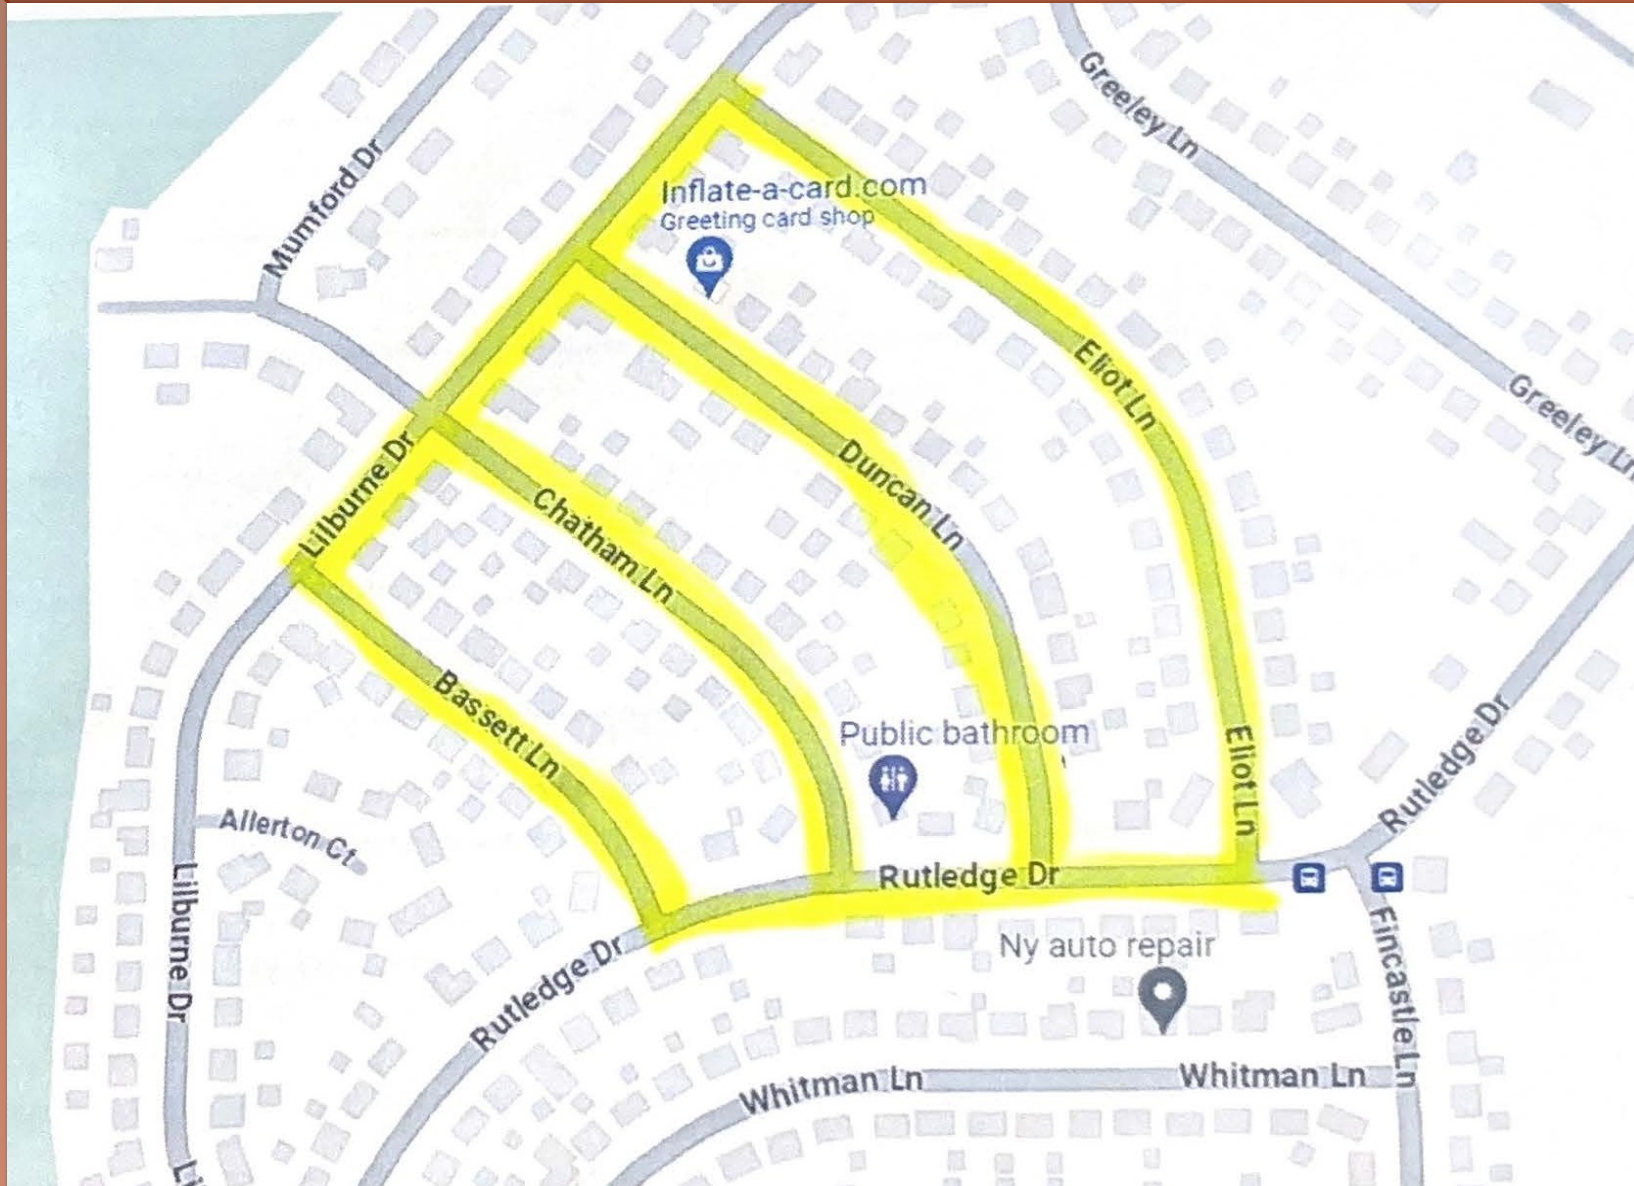

Upon completion of the scheduled 2 week period, the services and activities performed in that N.I.A. will be documented in a Departmental News story on the City website on the Home page and the Property Code Enforcement & Demolition page (see link below).

Every 5 to 6 weeks, a N.I.A. will be selected in a given City ward, with input from that ward's Councilperson. N.I.A.'s will be rotated by ward. Once all wards have had a completed N.I.A., the rotation will begin again with newly designated N.I.A.'s. A designated N.I.A. will be advertised with signage in that area, 2 weeks prior to the beginning of the scheduled work, as well as a posted entry in the City website calendar.
