Re: Vaccination Status and Testing

CITY OF YOUNGSTOWN MEMO REGARDING COVID-19 EMPLOYEE VACCINATION STATUS AND TESTING

In an effort to help stop the spread of the Covid-19 virus and in the interest of employee and public safety, the City of Youngstown has set a target date of January 4, 2022, by which to achieve a 75% vaccination rate among all City employees.

Prior to January 4, 2022, City employees are encouraged to either voluntarily receive the Covid-19 vaccination or, if they have already received their vaccination, to present their certified vaccination card to their department supervisor.

In the unfortunate event that the Covid-19 vaccination rate among City employees falls short of our 75% goal, the City will implement a policy requiring all City employees to either provide proof of Covid-19 vaccination or to undergo bi-weekly Covid-19 testing, at no cost to the employee.

However, if our 75% vaccination goal is reached, it would be unnecessary for the City to enact such a policy.

Be well,

Jamael Tito Brown
Mayor, City of Youngstown
