The Mahoning-Trumbull Air Pollution Control Agency (M-TAPCA)
9 W. Front St., Youngstown, Ohio 44502

Public Notice

The Youngstown City Health District would like to thank all of those who supported the Mahoning-Trumbull Air Pollution Control Agency (a division housed in the Youngstown City Health Department) and supported by the City of Youngstown for years. The Youngstown City Health District has decided to return the air pollution control activities to the Ohio Environmental Protection Agency, which provides similar services in many Northeast Ohio communities. We are confident that the Ohio Environmental Protection Agency can effectively provide these services throughout the two county area.

Services provided by the Mahoning-Trumbull Air Pollution Control Agency will be discontinued on September 30, 2018. You can contact the Ohio EPA Northeast District office for information on air pollution or concerns at 330-963-1200.

We wish the new Air Pollution team all of the best in the future and look forward to working together to educate our community on continuing to achieve a healthy environment.
