& Other Vital Programs

2020 CENSUS Timeline

2020

March 12 - 20: Households will begin receiving official Census Bureau mail with detailed information on how to respond to the 2020 Census online, by phone or by mail.

March 30 - April 1: The Census Bureau will cover these three days. As part of this process, the Census Bureau counts people in shelters, at soup kitchens and mobile food vans, on the streets, and at non-sheltered, outdoor locations such as tent encampments

April 1: Census Day is observed nationwide. By this date, every home will receive an invitation to participate in the 2020 Census. Once the invitation arrives, you should respond for your home in one of three ways: online, by phone or by mail. When you respond to the census, you'll tell the Census Bureau where you live as of April 1, 2020.

April: Census takers will begin visiting college students who live on campus, people living in senior centers, and others who live among large groups of people. Census takers also begin conducting quality check interviews to help ensure an accurate count.

May - July: Census takers will begin visiting homes that haven't responded to the 2020 Census to help make sure everyone is counted.

December: The Census Bureau will deliver apportionment counts to the President and Congress as required by law.

2021

March 31: By this date, the Census Bureau will send redistricting counts to states. This information is used to redraw legislative districts based on population changes.
