PUBLIC NOTICE **UPCOMING PROJECT INFORMATION**

Midlothian Boulevard Resurfacing Project

Project No. MAH-170-13.19 (PID 110681)

For Immediate Release

Contact: Charles T. Shasho,
Deputy Director of Public Works
Publicworks@youngstownohio.gov

(January 13, 2023) - The Ohio Department of Transportation (ODOT) proposes to mill and resurface 2.32 miles of State Route (SR) 170 from the Interstate Route (IR) 680/SR 170 interchange to Glenwood Avenue in Boardman Township and the city of Youngstown, Mahoning County. As part of this resurfacing project, City of Youngstown, proposes to restripe Midlothian Boulevard from Glenwood Avenue to Shirley Road, a distance of 2.19 miles. Within this section, travel lanes would be reduced from 4 lanes to 3 lanes, with one through lane in each direction, a center two-way left-turn lane with dedicated eastbound and westbound bike lanes and dedicated turn lanes, as needed. The City of Youngstown is also currently evaluating the potential to remove traffic signals at Hillman Street and Zedaker Avenue. This project is scheduled to begin construction in the spring of 2023. Restriping plans are available for download in the Projects > Work In-Progress area on the City website https://youngstownohio.gov/public_works

A minimum of one 10-foot lane of traffic in each direction shall be maintained along SR 170 on the existing pavement or completed pavement during project construction. Road closures and detours are not proposed to construct the project. Construction and lane restriction/reduction information will be posted within the project construction limits prior to the start of project construction. Access shall be maintained to all adjacent properties, businesses and intersecting side streets during project construction.

While no environmental impacts are anticipated during project construction, City of Youngstown, is seeking any comments you may have regarding the proposed project. Project-related issues the public may wish to comment on include, but are not limited to, the effect of the project on residents, the local economy, historic or cultural resources, etc.

We sincerely appreciate your cooperation and assistance so this worthwhile project can be completed at the earliest possible date. **Please submit comments by mail, phone, or email regarding the social, environmental, and economic impacts of the proposed project by Monday, February 13, 2023.**
