PHONE: (330) 742-8800 • FAX: (330) 742-8807

FOR IMMEDIATE RELEASE

TO: ALL LOCAL NEWS MEDIA
FROM: CHARLES T. SHASHO, DEPUTY DIRECTOR OF PUBLIC WORKS
RE: UPCOMING PROJECT INFORMATION - BOARDMAN STREET AND
WALNUT STREET RESTRIPING AND SAFETY UPGRADES
PROJECT NO. MAH-BOARDMAN/WALNUT ST; PID 116833

DATE: January 4, 2024

The city of Youngstown proposes to restripe Boardman Street between Walnut Street and Market Street and Walnut Street between Front Street and Commerce Street. Within these sections, travel lanes would be reduced to one through lane in each direction with dedicated turn lanes, as needed. Additional improvements proposed by this project include new dedicated parallel and diagonal on-street parking, new brick and concrete walk and new curb ramp installations to comply with Americans with Disabilities Act (ADA) standards, new or upgraded crosswalks, improved lighting, new landscaping, installation of a new mid-block crossing at Eastern Gateway Community College, and new traffic control sign installations.

This project will be constructed within existing roadway rights-of-way. The \$2,867,500 project is scheduled to begin construction in the summer of 2024 and will be completed by late fall of 2025.

During construction, existing traffic patterns will be maintained as long as possible. Thereafter, one block at a time along both Boardman Street and Walnut Street will be closed to vehicular traffic and detours will be provided. Pedestrian access will be maintained at all times on both streets. Access will be maintained to all adjacent properties, residences, businesses, and intersecting side streets. The construction schedule, lane restriction information, and detour information will be posted within the construction limits prior to construction starting. Due to the low volume of vehicles utilizing these streets and the availability of cross streets and parallel streets, substantial traffic disruptions are not expected during project construction.

While no environmental or community impacts are anticipated during project construction, the City of Youngstown Public Works Department is seeking any comments you may have regarding the proposed project. Project-related issues the public may wish to comment on include, but are not limited to, the effect of the project on residents, businesses, the local economy, historic or cultural resources, etc.

Should you have any comments or questions, please feel free to contact Charles Shasho, Deputy Director, using the contact information provided below. Comments received by February 5, 2024, will be considered during this phase of project development, but all comments will be addressed.

Individuals without computer access can request hard copies of the project materials by contacting Charles Shasho. Individuals who require interpretation services or reasonable accommodation to view the project material or provide comments are also encouraged to contact Charles Shasho. Public participation in this project is solicited without regard to race, color, sex, age, national origin or disability.
